

DIARY NOTES

25X1A

DD/S

6 May 1957

25X1A6a

25X1A9a

2. [REDACTED] telephoned to say that he had read [REDACTED] paper to me and saw no point in undertaking the type of TSS research project discussed. He further said that if I needed any help to get off the hook with Mr. Dulles he would certainly support me.

3. I advised Dick of the Director's signature on the [REDACTED] paper and he assured me that he would advise Messrs. Wisner and [REDACTED].

4. Shef Edwards telephoned concerning the proposed Notice on the "Security Reindoctrination Program" for all Agency personnel. I asked him to come up with a redraft on this and submit it to me.

6. [REDACTED] called to say that General Cabell had decided that [REDACTED] son of [REDACTED] would be admitted to the JOT Program. There had been some question about this because of medical and security reasons which General Cabell did not believe were sufficient for disqualification.

7. I talked with [REDACTED] about how to proceed in looking into the activities of the Management Staff and agreed that I would take each unit chief for a preliminary session and then decide on further procedures. John also showed me his indorsement on [REDACTED] Fitness Report made out by [REDACTED]. Whereas [REDACTED] had rated [REDACTED] as at least an "average" employee, John rated him as "incompetent" and said that he should be forced to retire as soon as eligible. He wanted me to know that he was giving [REDACTED] this rating because it undoubtedly will be grounds for further complaint against him (John). Told him that if this was his honest opinion of [REDACTED] he should render it in exactly that way.
